

MSc PROCUREMENT & SUPPLY CHAIN MANAGEMENT

(SANDWICH & WEEKEND)

Why Study for an MSc Procurement and Supply Chain Management at the University of Ghana Business School?

The introduction of this programme is a direct response to request made by our key stakeholders in Ghana (i.e. Civil Service, Public Procurement Authority, and the Ghana Health Service), and also to fill a training capacity gap across Africa. With an ever-increasing competitiveness of the global and local marketplaces within the context of globalisation, coupled with the need to ensure value for money through cost leadership, it has become imperative that students of procurement and supply chain management get equipped with the necessary skills and competence in this discipline in order to prove equal to the task across industries, both locally and internationally.
